charges were filed with the president son on the governor's action in the appointment of the reversible of the territory after his rejection by the territorial council. The charges are said to be very severe on the governor, and among the signers mentioned are L. Overhoelzer, county commissioner and a prominent capitalist; Captain D. F. Stiles, a well known real estate dealer: Selwyn Douglass, lawyer, and Sidney Clarke, member of the reyer, and Sidney Clarke, member of the re-cent legislative council of Oklahoma and ex-congressman from Kansas, all of Oklahoma City. Among those acquainted with the facts, the governor's case is said to be likely to prove of considerable interest be-

In addition to these charges, the charges will be revived which were brought against him before the senate committee by A. C. Holland, which relate to the governor's administration of the register's office at Guthrie in the early days. It is said that these charges will be vigorously pressed. The case has apparently excited interest

in administration circles, and in this connection the presence in the city at this time of F. E. McKinley, receiver at the Guthrie land office, is pointed out as indicating the president's degire to get at the bottom of things in Oklahoma politics.

Secretary Hitchcock, of the interior department, is out of the city and will not return until next week. It is understood that the whole case will be investigated on his

The fact that charges have been filed ls referred to by the friends of the governor as simply meaning that a certain stage of the administration has been reached. It will, in due time, reach the affidavit stage. When former Governor Renfrow had served two years of his sentence of governor, charges were filed not accountiate money until after he got out of office. Before he had served his full sentence many affidavits had been filed against him and he was a very bad man. No doubt Mr. Barnes will have trouble before he competes his sentence. He seems to enjoy life reasonably well. Although he admins that Canningham may not practice all the Christian virtues, yet he claims he is a competent official and upon this he rests his case mainly.

Fred McKinley, a cousin of the president and receiver of the Guthrie land office, has gone to Washington to remain a week or gone to Washington to remain a week or more. His visit, coming at about the same time as the proposed expected Eastern trip of Governor Barnes, is significant. It is hinted that the two men are to be inter-viewed by the president with the legislative investigating report of Governor Barnes' administration as the subject of the con-ference. The governor's friends, however, insist that he will not go farther East than St. Louis.

cording to information emanating from the department of justice, there is a material variance of statements between the attorney general's office and Judge Hainer, associate justice of Oklahoma supreme court in relation to the resignation of W. F Harn as clerk of Judge Hainer's court. Harn resigned on the statement of Judge Hainer that the attorney general demand-ed his resignation on the strength of an inspector's report which criticised Harn's administration of the clerk's office. aspector's report which criticised Harn's dministration of the clerk's office. According to Harn's friends, Judge Hain-r allowed him to resign on April 1, condi-lored that the resignation should not take effect until the 15th of that month, to enable Harn to come to Washington to make a statement before the department of jus-tice. The understanding was they say that if the department found no cause for his ismissai Harn was to return to his duties nd the resignation be off. Harn's friends also say that Judge Hain-

### DANGER IN SODA.

Serious Results Sometimes Follow Its Excessive Use.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never

intended as a medicine, and people who use it as such will some day regret it. We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice and one which is fraught with danger; more-over the soda only give temporary relief and in the end the stomach trouble gets

The soda acts as a mechanical firstant to the walks of the stomach and bowels and cases are on record where it has accumulated in the intestines causing death by inflammation or peritonitis.

Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20 grain lorenges, very pleasant to taste and contain the natural acids, peptones and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly defect the food perfectly and promptly digest the food perfectly and promptly digesting the food they create flesh and strengthen the action of the heart and liver. They are not a cuthartic, but intended only for stomach disease and weakness, and will be found reliable in all stomach troubles except cancer of the stomach. All druggists sell Stuart's Dyspepsia Tablets at 50 cents per package.

He then telegraphed the department that he had accepted Harn's resignation and that Harn had left the district without his consent. At the department of justice it is denied that Harn's resignation was ever demanded and Harn has shown a receipt dated and Newkirk, April 8, for \$5,100 official fees, proving that he was in the jurisdiction of the court seven days after he was reported to have absented himself without leave.

President McKinley has addressed an official communication to Judge Hainer in relation to the matter and in all probability an investigation will be ordered.

HIS STATEHOOD VIEWS.

Oklahoma's Governor Believes in the Union of the Two Territories and

Predicts a Grand State. WASHINGTON, June 10 .- (Special.) "I Cunningham as Attorney
General the Underlying
Cause of Trouble.

WASHINGTON, June 10.—(Special.) It is
understood that the real object of Governor
C. M. Barnes' presence in Washington at
this time relates to charges pending against
him in the interior department in connection with his administration of the office of governor of Oklahoma. These

It is a some state. Oklahoma is an agricultural
and cattle country. We have no industries of any great importance. The burden
of supporting the state would fall, therefore, upon the farmers and the cattle raisers, and so, I am inclined to think, would
bear a little too heavily upon them.

"Indian Territory has as large, if not a
larger, population than Oklahoma, and also
has some important industries, such as the
coal mining industry. If the two territories is
were joined they could support a state
government in fine style without burdening the people of either. The Indian Territory would really get the best of the
bargain, as Oklahoma has a big school
fund which she would have to divide with
her neighbor. The Indian Territory would really get the best of the
bargain, as Oklahoma. But taking
everything into consideration the benefits
would have a grand state.

"The people of Oklahoma." said the governor, "are particularly well pleased with
the selection of Hon. David B. Henderson
for speaker of the house. We have in
Oklahoma a very large soldler element, and
it was strongly in favor of Henderson."

The once numerous tribe of Fox Indians has only nine unmixed members living in Oklahoma, says Matt Duhr, a pioneer. They reside on their allotments near Rattlesnake Springs, Lincoln county. The other remaining Foxes live in Tama county, Ia. The Maskawahkee, or Foxes, claim to be lineal descendents of the red fox, and they hold everything pertaining to that sly animal in great esteem. Fox pelts, claws and bones are at par with gold among the devout Fox Indians. They are sun worshipers, and their houses have a door on the east, south and west sides. They leave the east door open in the forenoon, the south door from 11 a. m. to 1 p. m., and the west door during the afternoon, so that the sun, their greatest god, can look into their houses when he shines, from the happy land in the skies.

The drawing of gifts for the Enid convention hall has been postponed until September 16 and the cut of Colonel Havens \$500 bull calf will continue to be run by the local papers for several weeks yet. Cash Sirpless has retired from the bus-iness management of the Oklahoma City Oklahoman, but judging from the pros-perous appearance of the paper there is still some on hand.

Annie L. Diggs, state librarian, has received a hunch that the next Populist state convention will be controlled by a "ring" and to-day she served notice that if it was she would not abide by its decision.

"If the Populists hold an oldtime convention and let every delegate present have a voice in the selection of candidates I believe we stand a good show of carrying the state," said she. "But if a 'ring' of political shysters get hold of the convention and dictate nominations and nominate some men who are aspiring to high office I will use my best endeavors to help defeat them. The managers of our party must understand that bossism don't go; that we must stay down among the common people and let them have a say as to who the servants shall be. There are a number of good men seeking the nomination for governor and some mighty poor ones. If the people control the convention one of the good ones will be nominated; if the machine runs it a poor one will be nominated. If our party hopes to win it must put up a ticket composed of clean men." M. Greiner, of Edmond, and Noah P. THE HAGUE, June 10.—The chief delegates to the peace conference met to-day to discuss German complaints against the secrecy imposed upon the delegates and the consequence of misleading reports published and it is understood that Count Munster, head of the German delegation. was instructed to propose that the proto cols for the plenary sittings of the commit-tees be published immediately after they are drawn up.

IS NOT WANTED ON STATE BOARD The American delegates tell the representative here of the Associated Press that they are still confident of the adoption of some of their chief projects for arbitration but the preliminary discussion yesterday indicates the impossibility of maintaining them all. For instance, it is impossible to carry the proposal that the judges of the arbitration tribunal be elected by the highest court of justice of each country, as some of the European countries do not possess a judicial organization permitting such procedure. It is expected that the likeliest outcome will be that each country will be free to choose the manner of nom-inating its own judges. TOPEKA, June 10 .- (Special.) Pat Dolan,

TOPEKA, June 19.—(Special.) Pat Dolan, of Salina, the only remaining Pop member of the state board of charities, will be asked to vacate his office at the end of the present fiscal year—June 20. When the Leedy administration came into power in Leedy administration came into power in 187 the Republican members of the board of charities, as well as all other Republican officeholders immediately tendered their resignations. They had no desire to be a part and parcel of the reform administration.

Governor Leedy asked George A. Clark as a personal favor to remain on the board of charities until the end of the fiscal year. Mr. Clark did so. When the Stanley administration took charge of state affairs the Pop officeholders did not follow the example set by the Republicans.

Not a solitary one of them resigned. Their greed for office was stronger than their political principles. So it has been necessary for the governor to remove them and, when necessary to do so, to investi-

their political principles. So it has been necessary for the governor to remove them and, when necessary to do so, to investigate them out of office. By letting Dolan stay until the end of this fiscal year this administration has evened up with the Leedy administration in reference to the Clark incident. It has more than done so. Clark stayed by request. Dolan has stayed by sufferance. During the past three months Dolan has done nothing but draw his salary. He makes occasional trips with the other members, but he never takes part in the business sessions. He realizes that he is not wanted, but he can't give up the position and its emoluments, so it seems. Governor Stanley is determined that he shall get out, and if on June 30 he has not tendered his resignation the governor will cut the rope and let him down hard.

George Munger, the laundryman of Greenwood county, is chasing the Pop gubernatorial nomination in great shape. He is spending almost his entire time traveling about the state fixing up combinations.
